

COMPOSITE PARTS LIST: PRESTO® PRESSURE COOKERS

Instructions: Locate the model number of your cooker in the left hand column and read across the chart to see which parts are available for it. Any part marked N.A. is not available. The model number can be found on the exterior bottom or side of the cooker body or a metal tag on the cover. If you own an electric model starting with 0214, please call the Consumer Service Department for additional parts.

* The sealing ring kit consists of the sealing ring and the automatic air vent or overpressure plug. The 09902 and 09905 kits contain both.

** The overpressure plug is located under the handle of these models.

† If the original vent pipe has not been changed and you are ordering a pressure indicator, you will also need a new vent pipe.

‡ If replacing the original handles, you will need to purchase both the cover and body handles.

Prices of parts, postage & handling, and state sales tax are subject to change without notice.

COMPOSITE PARTS LIST: PRESTO® PRESSURE CANNERS

Instructions: Locate the model number of your canner in the left hand column and read across the chart to see which parts are available for it. Any part marked N.A. is not available. The model number can be found on the exterior bottom or side of the canner body or a metal tag on the cover.

* The sealing ring kit consists of the sealing ring and the automatic air vent or overpressure plug. The 09902 and 09905 kits contain both.

‡ If replacing the original handles, you will need to purchase both the cover and body handles.

*** For the No. 7 canner, parts are available only for the model with the overpressure plug in the center of the cover.

Prices of parts, postage & handling, and state sales tax are subject to change without notice.
