## Stainless Steel Electric Wok

[www.GoPresto.com](http://www.GoPresto.com)

The quick and easy way to prepare sizzling stir-fry meals!

Luxurious stainless steel body and handles.

Aluminum-clad base provides fast, uniform heating.

- Healthy stir-fry cooking quickly sears ingredients in just a small amount of oil to preserve nutrients, colors, and flavors.
- 1500-watt heating element provides the high searing temperature needed for stir-fry cooking.
- Control Master® heat control maintains the cooking temperature automatically.
- Tempered glass cover with stainless steel rim and handle.
- Includes a long-handled wooden spatula with wide-angled edge that conforms to the shape of the wok.

Traditional wok shape provides a narrow cooking well that minimizes the amount of oil needed and sloping sides that widen to a big 14-inch rim for professional quality stir-frying.

Wok and cover are fully immersible and dishwasher safe with the heat control removed.
